BY THE GOVERNOR.

A PROCLAMATION.

The Thirtieth Day of May in each year has been made a legal holiday in Wisconsin, not alone as a public and official recognition of the patriotic services of the soldiers and sailors whose fidelity and valor rescued our nation from impending dissolution, but also to remove all semblance of justification for omitting to conform to the custom which has hallowed and set apart that day for decorating the graves of deceased soldiers:

Therefore, I, William E. Smith, Governor of the State of Wisconsin, recommend to all the people of the State, that they do this year observe this day in a befitting manner. Wherever it is practicable, let the strewing of flowers be supplemented with parades and music and orations, and if in any place public ceremonies are not held, let some patriotic and public-spirited man, woman or child see to it that no soldier's grave is without a tribute of spring flowers.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affix-
[Great Seal.] ed. Done at the Capitol, in the city of Madison, this fifth day of May, in the year one thousand eight hundred and eighty-one

WILLIAM E. SMITH.

By the Governor:
HANS B. WARNER, Secretary of State.

This administration is becoming odious to frauds and swindlers.

Conkling moves in a mysterious way to show his disgust of senatorial life.

The country has not yet been able to learn what Mr. Conkling has gained by resigning.

Mr. Blaine makes an excellent Secretary of State, but during the contest at Albany he should be blanketed.

Although Mr. Conkling's resignation was "absolute" and final, he proposes to pitch in and fight for re-election all the same.

The first vote for Senator by the New York Legislature will take place next Tuesday. It is not likely that there will be any dead-lock.

In this fight at Albany there is a good deal of that kind of work going on which should remind the squabblers that the pot should not call the kettle black.

Mr. Henry Irving, of London, has been offered $100,000 for a seven months' theatrical tour in this country the coming season, but home engagements prevent him from accepting it.

The administration should keep out of the fight at Albany. The candidates for the Senate should be the only ones to do the fighting, and Robertson and Blaine should keep at respectful distance.

Ex-President Hayes can take away his old horses which he loaned to President Garfield. The President can do better. Congressman Updegroff, of Ohio, has presented to him a span of blooded horses.

In order to accommodate the star route swindlers and to keep the mail running at tremendous high figures, one of the postmasters in Montana, kept a circular running back and forth in the mail bags for months, and this was the only mail carried on one of the "expedited" route.

A postmaster out West saw an opportunity to make two or three hundred dollars by forging a few money orders. But now he can't see the opportunity to get out of the penitentiary before the expiration of five years. A man who will sell himself to a State prison for two hundred dollars should resign his place here below.

There has been a marvelous growth in the telegraph business in this country during the past thirty-seven years. The first message ever sent over a telegraph wire was transmitted on the 24th day of May, 1844, and was sent from Washington to Baltimore. The following interesting facts have been published in regard to the first telegraphic message ever transmitted: The message was sent from Washington to Baltimore, Professor Morse being in the chamber of the supreme court at Washington, and the receiver of the message, Mr. Alfred Vail, being at the Mount Clare depot, Baltimore. The exact date is given upon the authority of Mr. Cyrus W. Field, the well known promoter of cable telegraphy. The message was indited by a young lady friend of Professor Morse, Miss Anne G. Ellsworth, daughter of the then Commissioner of Patents, she having given the Professor the first intelligence he had received of his bill making an appropriation for putting up a wire between Washington and Baltimore, having been passed by Congress. The message which she indited and the Professor sent, "What hath God wrought?" A letter written by Professor Morse, May 24, 1845, just one year after the first message was transmitted, expressed the hope that the receipts of each office "will soon mount up to at least $5 per day." Now, only thirty-six years later, the receipts of some of the offices "mount up" to nearer $5 a minute.

There is pretty positive proof that this is going to be an active administration. It will be an administration which will pay big dividends to the people. Secretary Windom, of the treasury, has already succeeded in reducing the rate of interest on $450,000,000 of 5 and 6 per cent. bonds, to 3½ per cent. and that without any funding scheme by Congress. This was a bold strike for Mr. Windom, but he carried it through, and to-day he stands on the foremost rank of financiers. He now proposes to do more than this—will pay off $100,000,000 of the debt with surplus revenue. And the announcement has gone forth that before December next, he will begin to pay off the 3½ per cent bonds. So far Mr. Windom has made a saving to the country of $12,000,000 a year in interest. Beside doing all this he has found time to make a little investigation into the accounts of O. L. Pitney, custodian of the treasury department. Here he found fraud, and at once made the expose. There are rich revelations connected with Mr. Pitney's office, and the indications are that they had been going on for some time. Postmaster General James had not been in office two weeks before he began to bring to the front some of the star route swindling. It is true, that for several years extravagance had been known to exist in the post-office department, but Postmaster General Key did not have the courage to kick Brady out of office and start a healthy investigation. Mr. James had the courage to do both, and already he has saved the government hundreds of thousands of dollars. This is the way to start in. It is the way to keep on doing. If there are frauds and incompetency, expose them no matter whose reputation is soiled or official head cut off. Good government is what we want, and honest officials are what the people demand. The only way to make a party honest is to bring it to a strict account for its acts and doings, and if it commits frauds and goes into general crookedness, to hold it up for public reprobation. That is what this administration is doing.

A FRIGHTFUL DISASTER.

An Excursion Boat Goes Down near London, Ontario, With Six Hundred Passengers on Board, Most of Whom Were Drowned.

LONDON, Ont., May 24.—This evening at 6 o'clock the steamer Victoria, with over 600 excursionists on board, was returning from Spring Bank, and when near the Cove railway bridge, one mile below this city, the boat suddenly collapsed like an egg shell and became a total wreck, level with the water's edge. All the passengers were instantly plunged into the stream, more than half of them being beneath the debris.

The first news which reached the city was brought by survivors, who straggled through the streets wet and weary.

The news fell like a thunderbolt, and a stampede took place for the spot. Arriving there a terrible sight met the view. Fifty or sixty ladies had already been recovered and were lying on the green sward some distance up the bank.

Those arriving from the city from every direction crowded around, anxious to see if any relatives were on board.

Several hundred families were represented on the excursion, and the wail of the victims was heart-rending.

Fathers, mothers, brothers, and sisters rushed about panic-stricken, endeavoring to identify relatives.

By 7 o'clock about eighty bodies were recovered from under the wreck, where the water was twelve feet in depth. Almost every minute some victim was brought to the surface and conveyed to the boat.

The steamer Princess Louise was early brought to the spot and the victims placed on the upper deck. Fires were then lit on the bank overlooking the river, and petroleum torches were brought, and the search was continued.

Up to the present hour about one hundred and fifty corpses have been secured. Among the dead are James Robertson, manager of the bank of British North America; J. B. Merdith, clerk of the division court; Wm. Mc Bride, assessor and secretary of the western fair association; Mrs. Wm. Ashbury, Wm. Willman, Montreal commercial agent, and two sons of S. Rogers Plumber.

All is confusion at the present moment The landing at the foot of Dundas street is now crowded with people—all awaiting in breathless expectation for the arrival of the steamer Princess with the bodies. The total will aggregate one hundred and seventy-five.

The accident was entirely due to gross carelessness.

The boat was overcrowded to a disgraceful extent. The manager, was expostulated with by several at Springbank, and urged not to let the boat go out in that overcrowded condition, but he is reported to have replied. "All right, I know my business," for something of that sort.

THE SITUATION.

Conkling's Friends are Cheerful—Roscoe Will Stump New York in the Fall.

ALBANY, N. Y. May 24—Senator Conkling and Vice President Arthur arrived here this afternoon and Senator Platt late in the evening. The Senator has been visited by large numbers of members of the Legislature, to whom he has explained the reason of his cause, and from whom he has received explanation of the condition of affairs in their respective Assembly districts. The results of these conferences have been in every respect gratifying, and few members in the more doubtful districts, however, but the large majority are solid. It is understood that the Senator will stump the State this fall, entering every assembly district in which a friend of his is a candidate. This in itself is in the highest degree assuring to members.

THE BAKER BANK.

FOND DU LAC, May 24.—There is great excitement here over the failure of R. A. Baker's bank. The loss will be over $300,000. Baker, the owner, and Burroughs, the cashier, have been arrested. People pulled revolvers on Burroughs and tried to shoot him The city will lose $40,000, ruining the city treasurer, C. J. Pierson. Everything indicates general crookedness of Baker and Burroughs.

ABSENT CABINET OFFICERS

WASHINGTON, May 24—But three members of the cabinet were in the city today, Messrs. Windom, James and Kirkwood. Secretary Blaine is in New York, for the alleged purpose of taking a hand in the New York senatorial contest. Secretary Lincoln left for Leavenworth, Kansas, to inspect the military post near that city. Secretary Hunt left the city this morning for New York. Secretary Kirkwood will leave for the West tomorrow, and Attorney General MacVeagh is in Philadelphia, attending the funeral of the late Colonel Thomas A. Scott.

MRS. GARFIELD.

WASHINGTON, May 24.—Dr. Boynton to-day announces that the crisis in Mrs. Garfield's case has passed, and that there is no doubt of her recovery. The patient shows signs of early and rapid improvement. It is only a question of time now when she will be fully restored to health. This will be gratifying news to the personal friends of the President and his family.

STOLEN MUSKETS FOUND.

MADISON, May 24.—The 150 muskets and other accoutrements stolen from the University armory were found to-day in the basement of the main building, where they had been secreted.

COUNTERFEITERS.

The Capture of One of a Gang of Money Order Counterfeiters.

WASHINGTON, May 24—A report has been received at the post office department from Special Agent Tidball, who recently went to Altoona, Pa., to arrest an Ohio postmaster who had been counterfeiting postal money orders. The prisoner told Tidball that he was one of a gang of twelve or fifteen persons comprising postmasters, route agents and printers, whose operations covered an aggregate of more than $100,000. The gang according to the story of the prisoner, has been counterfeiting postal cards. In his satchel were found counterfeit orders having formed the signatures of the postmaster at East Liverpool, upon thirty-three different offices in Pennsylvania, New Jersey, Connecticut, and Massachusetts. There were 186 money orders in all, each order being for $50, and aggregated $9,300. He had presented six orders each upon Irwin Latrobe, of Blairsville, Johnstown, New Florence and Altoona, but had drawn only $650 upon them. He had requested to forward the balance of money by registered letters to him at Boston, Massachusetts.

THE PRINCESS LOUISE.

ST. JOHN, N. B., May 24—The Princess Louise sails for Canada, per the Persia, the first week in June.

Luxinger, night yardmaster here in the employment of the Chicago, Milwaukee & St. Paul railway, while uncoupling cars last night was knocked down and run over, cutting off both his legs, from the effect of which he died at 9 o'clock this morning. His parents live in Monroe, Wis.

AND SPERMATORRHŒA.

A valuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the speedy and permanent Cure of Seminal Emissions and Impotency by the only true way, viz: Direct Application to the principal Seat of the Disease, acting by Absorption and exerting its specific influence on the Seminal Vesicles, Ejaculatory Ducts, Prostate Gland, and Urethra. The use of the Remedy is attended with no pain or inconvenience, and does not interfere with the ordinary pursuits of life; it is quickly dissolved and soon absorbed, producing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dimness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Society, etc., etc., and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation. Practical observation enables us to positively guarantee that it will give satisfaction. "During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in neat boxes, of three sizes. No. 1, (enough to last a month,) $3; No. 2, (sufficient to effect a permanent cure, unless in severe cases,) $5; No. 3, lasting over three months, will stop emissions and restore vigor in the worst cases,) $7. Sent by mail, sealed, in plain wrappers. Full DIRECTIONS for using will accompany EACH BOX.

Send for Sealed Descriptive Pamphlets giving Anatomical Illustrations and Testimony, which will convince the most skeptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected. Sold ONLY by

—It seems now to be definitely settled that the Junction is to have a sugar mill located here this fall. Mr. John Almony, a man who has spent most of his life among the sugar plantations of the South, has arranged with an Eastern firm to place and assist in operating a sugar factory here for manufacturing sugar out of sugar cane, or sorghum. Quite a large number of farmers have pledged themselves to raise a certain number of acres this season in order to test the success of its manufacture. There seems to be no doubt in the minds of the gentlemen interested that it will prove a perfect success. If so, its culture will largely supercede that of tobacco in this locality.

—Clark Bro.'s shipped a car load of oats on Monday, for which they paid 34 cents.

—Vegetation and cropsin general, are looking very fine, but late oats and corn just planted pleads rain to give them a start.

"I'VE brought this thermometer back," said a down-town man as he threw the instrument on the counter of a hardware store. "There isn't a member of my family that can tell the time of day by it, and I guess the thing's run down. It hain't ticked a solitary once since I've had it. Don't you have any keys for 'em?" and because a young woman who was buying a pair of scissors snickered, he turned red in the face and left the store, muttering something about "new fangled ideas being nuisances."—*New Haven Register.*

SHE stood on the curbstone so charming,
All dressed in a neat suit of blue;
And she looked far above all earth's harming,
So gentle, angelic and true.

But there came by a lumbering wagon,
With wheels splashing mud all about;
And it left her with not a dry rag on,
And wiped all her innocence out.

For I heard—no, I'll never reveal it—
A word that was naughty and tart;
And I buttoned my coat to conceal it
In the depths of my grief-stricken heart.

SCIENCE AND INDUSTRY.

THERE are fifty kinds of flowers growing in the Arctic regions which are to be found nowhere else. They are most of them of a white or yellow color.

A PARIS manufacturer claims to have discovered a process for substituting the leaves of the eucalyptus tree, which in burning emit a delicious perfume, for tabacco leaves in making cigars.

A PHILADELPHIA man has invented a method of supplying beacon lights with compressed gas. The apparatus will keep a beacon light going for two months, and will automatically regulate the light. The gas used is made from crude petroleum, and costs twenty cents a thousand.

IN 1669 Johannis Swammerdam wrote a treatise upon insects, in which he declared that he could show all the parts of the butterfly in a caterpillar and could make the change of the caterpillar proceed slowly, so that he could produce a creature half butterfly and half caterpillar. The experiment was performed in the presence of the Duke of Tuscany.

SHIP RAILROADS have a precedent in Germany, where vessels of sixty tons capacity are carried overland from the upper to the lower part of the Elbing-Oberland Canal, in West Prussia. This ship railroad has been in successful operation for over sixteen years, but when the idea was first broached it was ridiculed by everybody. Even then, however, there had been a precedent for the scheme in a road over our Alleghany range, on which four-ton canal-boats were carried.

A LECTURE by Dr. O. J. Lodge, deliverey at the London Institution, shows in a very intelligible way the relation between electricity and light. The lec ure was for the most part expository, and traced generally the steps by which Clerk Maxwell arrived at the almost certain conclusion that light is an electro-magnetic disturbance, with some of the startling results which that statement implies. A prediction of what seems already theoretically possible, and may be soon practically accomplished, was advanced by Dr. Lodge—the transmission of views and pictures by means of the electric wire.

Remarks on the Mule.

THE mule is a vertebrayte. He has four legs, the rear ones being steam-boiler explosions in disguise. He has also a pair of lungs larger than an emigrant's valise, and he can execute the most fatal love-taps of any animal creature in all creation and part of New Jersey. The idea of nitro-glycerine was taken from the kick of the mule. More profanity has been expressed upon him than would, if judiciously distributed, stock up all the theological seminaries in the land. The mule is extremely musical, and, like all grand musical instruments, is composed mostly of stops; and as a stoppist he is a success. In this respect he is like the day laborer. Neither can go as fast as an express train or a false rumor, but they can stop 137 degrees quicker by actual count. I remember once being in the country. It was in the season when the small boy was being tied up into a hard knot by the first peaches of the season, which consisted of a piece of buckskin wrapped around a piece of cobble-stone. The flowers were in bloom and the country swain was coming nome from picnics with a huckleberry pie war-map upon the seat of his pants. It was at this time, then, that I resolved, while enjoying all the comforts and soul-satisfying beauties of pastoral life, to see the mule upon his native heath. I found him quietly dozing as though at his own fireside, surrounded by his immediate friends and relatives. His mind was filled with peace and his hide with splinters—from numerous clubs that had been used to fondle him with. He was running over with a virtuous serenity. I wanted to hear him warble. So, after I had used up a spade on him, he suddenly sucked into his lungs all the air in the three adjoining counties, and then issued a specimen number of his bray that was enough to lift a mortgage from a two-thousand acre farm, or give a mummy the rinderpest. I have heard Nilsson sing for $1,200 a night, heard the opera "Fra Diavolo" by a Choctaw brass band, and "Rory O'Moore" on a bass-drum by a toothless private, but this was the most astounding musical matinee I ever had a free pass to in all my life. Every note was fired forth in a solid chunk, and the sound was enough to make a man's spirit go down like the price of linen pants in January. I stayed until that mule had brayed down a railfence and retired a frame-shed from active business, and then I left, a sadder but a deafer man.—*Sam Forte's Zeology.*

BRIEFLETS.

—Painters and paperers are busy.

—The Orpheus club had a glorious sing last night.

—The city fathers meet in council next Friday evening.

—A goodly number of our citizens are taking down their front fences.

—Misses Grace Cheney and Julia Moore, of Monroe, are in the city visiting friends.

—The Young Men's Christian Association hold its annual election at the Baptist church this evening.

—J. B. Doe, Jr., has gone to Winona, Minnesota, called thither by the severe illness of his little child.

—Rev. Henry Pullen is making some improvements in his house on Washington street in the First ward.

—John M. McKey's condition remains about the same, he being very dangerously ill, with congestion of the brain.

—The Beloit City Guards have rented Hanchett's hall and some adjoining rooms as an armory, for a term of three years at $175 per year.

—Miss Clara Stanton, who has been visiting J. A. Blount's family, and other friends here, returns to-morrow to her home in Chicago.

—Mrs. Jacob Clark, of Fond du Lac, arrived this afternoon for a visit to her old friends here, she being a guest of Mrs. Henry Rogers, Main street.

—Justice Prichard to-day issued warrants for three persons sharged with using abusive language. Two appeared, pleaded guilty, and patd about $13 costs.

—The Knights of Pythias have wisely concluded not to undertake the trip to Beloit and return on horseback, but to go by carryalls and teams, and not saddle or spur until after getting there.

—The Round Table closes its season one week from next Saturday evening with papers by Miss Carrie Zeininger, Rev. T. W. MacLean, B. F. Dunwiddie, Rev. T. P. Sawin, Rev. O. A. Curtis, and S. B. Smith.

—The thirty-fifth annual session of the State Medical society is to be held in Milwaukee, Tuesday, Wednesday, and Thursday, June 7th, 8th, and 9th. Dr. J. B. Whiting, of this city, is one of the committee on ethics.

—J. E. Heg, of the Geneva Lake Herald, sends forth a very "fly" announcement that he will begin the publication of the Lake Geneva Cisco, for the third season, on the 18th of June. A life-sized portrait of a cisco fly accompanies the announcement.

—A wooden curbing is being put in along the outside of the walk in front of the court house park, and the space between the curbing and walk is to be filled and sodded. This will prevent any more hitching of horses to the large trees which stand there.

—Fred H. Fellows is making some great improvements in his residence in the First ward. An addition of twenty feet is being built on, the rear roof raised, and many other changes made, which will make it a model home when completed.

—The wooden awnings on Mitchell's and adjacent blocks are being taken down, and are to be succeeded by cloth awnings. Let the good work go on. If every old shed on Milwaukee street could be cleared away, it would make a far different looking street.

—For the first time since January the Wisconsin shoe company has caught up with its orders, and the travelling men have started out with their fall samples. The present interim before the orders come rushing in again, is being used in getting the machinery, etc., in good shape for another busy time, and a portion of the force is taking a rest.

—John A. Young, the hotel proprietor at Brodhead, has closed his house to the traveling public because the village authorities have refused to grant him license to sell liquors. In consequence of closing the hotel much inconvenience is caused, those who visit Brodhead being compelled to hurry out of town to get lodging somewhere else as night draws on.

—In the Circuit Court the jury which listened to the evidence in the case of the State vs. John Brown, acquitted the young man who was charged with forging his father's name to an order on C. T. Wilcox for a livery. To-day Main, the barber, is being tried for stabbing Patrick Collins. District Attorney Sale appears for the State, and Eldredge & Fethers for the defendant.

—Dr. Bigelow, who was yesterday sentenced to sixty days in jail as a common drunkard, asserts there is some cruel conspiracy which results in his being arrested every time he visits Janesville. We think so too. The bottle and the stomach have evidently conspired against him, but then he can spend his leisure time to advantage now in polishing off his poem "Life Among the Lillies," and other flashes of genius, which he is preparing for the Atlantic, Harper's and other well-known magazines.

—Saturday night a two-year-old Clydesdale colt belonging to William Menzies, met with a strange death. The colt broke loose in the barn, and after prowling about at will, concluded to climb some stairs leading to the haymow above. He as successfully accomplished the feat as though he had been a circus wonder, doing it before a fifty cents a head audience. In walking around on the haymow he fell into one of the openings through which hay is pushed down to the mangers below, and was unable to extricate himself. Here he was found Sunday morning, dead. The colt was a fine one, and of excellent blood, and his suicide causes a loss of fully $200 to the owner.

—A ghastly joke has been innocently played at the Johnstown county house. One of the female inmates was very sick a day or two ago, and as the physician said she could live but a very few minutes longer, a messenger who was coming to the city, purchased a coffin, had it trimmed, and saw some relatives here and informed them that the woman was dead. The coffin was taken out, and the relatives went out expecting to attend the funeral. What was their surprise to find that instead of passing over the river, the woman had awakened from a sort of trance into which she had fallen, and saluted her relatives with a welcome, spoken with such vigor as to forbid all idea of death. She was up and around, and taking a livly interest in the world of the living. The coffin was placed in the store-room for future use, and the relatives who expected to attend a funeral went home again.

PUSHING A CAR-PUSHER.

Will Seymour, who has been selling a car pusher, has associated with him Mr. Sager and T. T. Croft, under the firm name of Sager, Croft & Co., for the manufacture of an entirely new contrivance for that purpose, the firm's own device, and one which promises to be the favorite. These new car-pushers are being manufactured at the Harris works, and yesterday was the first day in which they were offered for sale. It was a lively opening, Mr. Seymour taking orders for twelve. This car-pusher is unlike any others, it being the only rotary one yet invented, the others being by lever or application of the old pinch bar. This new one is certainly very ingenious, and for ease of working and power is really remarkable. Last Friday it was put to the test on the track here, and with two cranks and two men, it moved four loaded cars, one of lumber, one of flour, one of coal and one of wheat, the whole weighing eighty-six tons. With one crank a man, and even a boy, can move one loaded car at will, and very easily indeed. Coal men, grain dealers, lumber merchants, etc., who need such an appliance for moving loaded cars about their yards will gladly welcome this new machine, and those who have tested it, speak very highly of it. It promises to grow into quite an industry here, and is an addition to Janesville's manufacturing enterprises, which will doubtless be crowned with success.

THE WEATHER.

REPORTED BY PRENTICE AND EVENSON DRUGGISTS.

The thermometer at 6 o'clock last night stood at 82 degrees above: at 1 o'clock a. m. to-day a 62 degrees above; at 7 o'clock a. m. at 63 degrees above, and at 1 o'clock p. m. at 83 degrees above. Clear.

The indications to-day are for the lake region, slightly warmer, fair weather, east to south winds, and stationary or slowly falling barometer.

THE BIG SHOW OF THE BIG YEAR.

The performance, both afternoon and evening, fully warranted the glowing advertisements.—GRAND RAPIDS DAILY DEMOCRAT.

The present is the biggest kind of a year of big discoveries, big enterprises, and big results, and among all its biggest triumphs comes Sells Brothers' Big Millionaire Confederation of Stupendous Railroad Shows; the biggest amusement undertaking, and the biggest popular success, to make the biggest kind of a day at Janesville, on Saturday the 28th inst. It has the biggest pile of solid capital invested, the biggest parade, the biggest tents, the biggest animals, the biggest menagerie, the biggest circus, the biggest bands, the biggest railroad trains, the biggest electric light, the biggest feature in the smallest Dwarf Elephant on earth, the biggest Arctic Aquarium, the biggest and only pair of Hippopotami, the biggest sensation in its pair of Woolly Elephants, the biggest only drove of Performing Colorado Cattle, the biggest and only Rainbow-hued Mandrill, the biggest Two-horned Rhinoceros, the biggest and only full grown pair of Polar Bears, the biggest equestrian card in James Robinson, with the biggest reputation and receiving the biggest salary; the biggest Caravan of Elephants and Camels, the biggest Japanese Circus, the biggest leaper in Geo. M. Celley, the biggest troupe of performing animals, the biggest features, the biggest-hearted and biggest-brained management, draws the biggest and most delighted crowds, is the biggest advertiser, receives the biggest kind of compliments from the press, and is, assuredly, the best and biggest of all the big shows.

IF "cleanliness is the scale of civilization," Janesville must stand high on the scale, judging from the immense quantities of toilet soaps Prentice & Evenson have just received. For pure vegetable oil soaps go to the drug store opposite the post office.

Making a Raise.

John Hays, Credit, P. O., says that for nine months he could not raise his hand to his head through lameness in the shoulder, but by the use of THOMAS' ECLECTRIC OIL he was entirely cured.

RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876, I was taken with a VIOLENT BLEEDING OF THE LUNGS, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when, to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles, and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared, and I shall soon be able to go to work." Sold by druggists. 1
